**MSG NETWORKS INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

All amounts included in the following Notes to Consolidated Financial Statements are presented in thousands, except per share data or as otherwise noted.

**Note 1. Description of Business and Basis of Presentation**

**Description of Business**

MSG Networks Inc. (together with its subsidiaries, the “Company”) owns and operates two regional sports and entertainment networks, MSG Network and MSG+, collectively the “MSG Networks.”

On September 30, 2015 (the “Distribution Date”), the Company distributed to its stockholders all of the outstanding common stock of The Madison Square Garden Company (“MSG”) (the “Distribution”). Following the Distribution, the Company no longer consolidates the financial results of MSG for purposes of its own financial reporting. Certain transaction costs related to the Distribution are classified in the consolidated statement of operations for the three months ended September 30, 2016 as discontinued operations.

The Company operates and reports financial information in one segment. Substantially all revenues and assets of the Company are attributed to or located in the United States and are primarily concentrated in the New York City metropolitan area.

**Unaudited Interim Financial Statements**

The accompanying interim consolidated unaudited financial statements have been prepared in accordance with generally accepted accounting principles in the United States (“GAAP”) for interim financial information and the instructions to Rule 10-01 of Regulation S-X, and should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended June 30, 2017. The financial statements as of September 30, 2017 and for the three months ended September 30, 2017 and 2016 presented in this Quarterly Report on Form 10-Q are unaudited; however, in the opinion of management such financial statements reflect all adjustments, consisting solely of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods presented. The results of operations for the periods presented are not necessarily indicative of the results that might be expected for future interim periods or for the full year.

**Note 2. Accounting Policies**

**Principles of Consolidation**

The consolidated financial statements of the Company include the accounts of MSG Networks Inc. and its subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

**Use of Estimates**

The preparation of the accompanying consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amount of assets and liabilities reported, disclosures about contingent assets and liabilities, and reported amount of revenues and expenses. Such estimates include the valuation of accounts receivable, goodwill, intangible assets, other long-lived assets, tax accruals, and other liabilities. In addition, estimates are used in revenue recognition, income tax expense, performance and share-based compensation, depreciation and amortization, litigation matters, and other matters. Management believes its use of estimates in the consolidated financial statements to be reasonable.

Management evaluates its estimates on an ongoing basis using historical experience and other factors, including the general economic environment and actions it may take in the future. The Company adjusts such estimates when facts and circumstances dictate. However, these estimates may involve significant uncertainties and judgments and cannot be determined with precision. In addition, these estimates are based on management’s best judgment at a point in time and as such, these estimates may ultimately differ from actual results. Changes in estimates resulting from weakness in the economic environment or other factors beyond the Company’s control could be material and would be reflected in the Company’s financial statements in future periods.

**Recently Adopted Accounting Pronouncements**

In March 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2017-07, *Compensation — Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. This standard was early adopted by the Company in the first quarter of fiscal year 2018, and was applied retrospectively. The adoption of this standard resulted in the non-service cost components of net periodic benefit cost to be

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**  
**(Continued)**

presented separately from the service cost component, and the non-service cost components to no longer be included in the subtotal for operating income in the consolidated statements of operations. The presentation of the service cost component of net periodic benefit cost remains unchanged within selling, general and administrative expenses and direct operating expenses in the consolidated statements of operations. As this standard was applied retrospectively, the Company reclassified \$420 of net periodic benefit cost from selling, general and administrative expenses and direct operating expenses to a separate line item within other income (expense) in the accompanying consolidated statement of operations for the three months ended September 30, 2016.

**Recently Issued Accounting Pronouncements Not Yet Adopted**

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which supersedes the revenue recognition requirements in FASB Accounting Standards Codification (“ASC”) Topic 605, *Revenue Recognition*. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing, and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. In August 2015, the FASB issued ASU No. 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*, which defers the effective date of ASU No. 2014-09 for all entities by one year. In March 2016, the FASB issued ASU No. 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations*, which provides clarification on the implementation guidance on principal versus agent considerations outlined in ASU No. 2014-09. In April 2016, the FASB issued ASU No. 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*, which finalized amendments to identifying performance obligations and accounting for licenses of intellectual property. In May 2016, the FASB issued ASU No. 2016-12, *Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients*, which clarifies assessing collectibility, noncash consideration, presentation of sales taxes, completed contracts, and contract modifications at transition. This standard will be effective for the Company beginning in the first quarter of fiscal year 2019 using one of two retrospective application methods. The Company is currently evaluating the impact this standard will have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which supersedes the current guidance in ASC Topic 840, *Leases*. This ASU requires the recognition of lease assets and lease liabilities on the balance sheet for those leases classified as operating leases under previous GAAP. The amended guidance also requires additional quantitative and qualitative disclosures regarding the amount, timing, and uncertainty of cash flows arising from leases in order to provide additional information about the nature of an organization’s leasing activities. This standard will be effective for the Company beginning in the first quarter of fiscal year 2020, with early adoption permitted, and the modified retrospective approach required. The Company is currently evaluating the impact this standard will have on its consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*, which amends ASC Topic 230, *Statement of Cash Flows* to eliminate the diversity in practice related to the classification of certain cash receipts and payments in the statement of cash flows by adding or clarifying guidance on eight specific cash flow issues. This standard will be effective for the Company beginning in the first quarter of fiscal year 2019, with early adoption permitted and the retrospective approach required. The adoption of this guidance is not expected to have a material impact on the Company’s consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*, which clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses, which will effect various areas of accounting including, but not limited to, goodwill and consolidation. This standard will be effective for the Company beginning in the first quarter of fiscal year 2019, with early adoption permitted. The standard is to be applied prospectively. The adoption of this guidance is not expected to have a material impact on the Company’s consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, *Intangibles — Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*, which simplifies the measurement of goodwill impairment by eliminating the requirement of performing a hypothetical purchase price allocation. Instead, impairment will be measured using the difference between the carrying amount and fair value of the reporting unit. The amended guidance also eliminates the requirement for any reporting unit with a zero or a negative carrying amount to perform a qualitative assessment and will require disclosure of the amount of goodwill allocated to each reporting unit with a zero or a negative carrying amount of net assets. This standard will be effective for the Company beginning in the first quarter of fiscal year 2021, with early adoption permitted. The standard is to be applied prospectively. Based

**(Continued)**

on the Company's most recent annual goodwill impairment test completed in fiscal year 2018, the adoption of this guidance is not expected to have any initial impact on the Company's consolidated financial statements.

In May 2017, the FASB issued ASU No. 2017-09, *Compensation — Stock Compensation (Topic 718): Scope of Modification Accounting*, which provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. An entity should account for the effects of a modification unless all of the following characteristics of the modified award are the same as the original award immediately before the original award is modified: (i) the award's fair value, (ii) the award's vesting condition, and (iii) the award's classification as an equity or liability instrument. This standard will be effective for the Company beginning in the first quarter of fiscal year 2019, with early adoption permitted. The standard is to be applied prospectively to an award modified on or after the adoption date. The adoption of this guidance is not expected to have a material impact on the Company's consolidated financial statements.

### Note 3. Computation of Earnings per Common Share

Basic earnings per common share ("EPS") is based upon net income available to common stockholders divided by the weighted-average number of common shares outstanding during the period. Diluted EPS reflects the effect of the assumed vesting of restricted stock units ("RSUs") and exercise of stock options only in the periods in which such effect would have been dilutive.

The following table presents a reconciliation of the weighted-average number of shares used in the calculations of basic and diluted EPS:

	<b>Three Months Ended</b>	
	<b>September 30,</b>	
	<b>2017</b>	<b>2016</b>
Weighted-average number of shares for basic EPS	75,285	75,103
Dilutive effect of shares issuable under share-based compensation plans	494	309
Weighted-average number of shares for diluted EPS	75,779	75,412
Anti-dilutive shares	157	100

### Note 4. Goodwill and Intangible Assets

During the first quarter of fiscal year 2018, the Company performed its annual impairment test of goodwill, and there was no impairment of goodwill identified.

The Company's intangible assets subject to amortization are as follows:

	<b>September 30, 2017</b>	<b>June 30, 2017</b>
Affiliate relationships	\$ 83,044	\$ 83,044
Less accumulated amortization	(43,246)	(42,381)
	<u>\$ 39,798</u>	<u>\$ 40,663</u>

Affiliate relationships have an estimated useful life of 24 years. Amortization expense for intangible assets was \$865 for the three months ended September 30, 2017 and 2016.

On September 28, 2015, MSGN Holdings L.P. (“MSGN L.P.”), an indirect wholly-owned subsidiary of the Company through which the Company conducts substantially all of its operations, and MSGN Eden, LLC, an indirect subsidiary of the Company and the general partner of MSGN L.P., Regional MSGN Holdings LLC, a direct subsidiary of the Company and the limited partner of MSGN L.P. (collectively with MSGN Eden, LLC, the “Holdings Entities”), and certain subsidiaries of MSGN L.P. entered into a credit agreement (the “Credit Agreement”) with a syndicate of lenders.

The Credit Agreement provides MSGN L.P. with senior secured credit facilities (the “Senior Secured Credit Facilities”) consisting of: (a) an initial \$1,550,000 term loan facility (the “Term Loan Facility”) and (b) a \$250,000 revolving credit facility (the “Revolving Credit Facility”), each with a term of five years. In connection with the Distribution, \$1,450,000 of the proceeds from the Term Loan Facility was contributed to MSG immediately following the closing of the Senior Secured Credit Facilities. Up to \$35,000 of the Revolving Credit Facility is available for the issuance of letters of credit.

Subject to the satisfaction of certain conditions and limitations, the Credit Agreement allows for the addition of incremental term and/or revolving loan commitments and incremental term and/or revolving loans. Borrowings under the Credit Agreement bear interest at a floating rate, which at the option of MSGN L.P. may be either (a) base rate, representing the higher of: (i) the New York Fed Bank Rate plus 0.50%; (ii) the U.S. Prime Rate; or (iii) the one-month London Interbank Offered Rate, or LIBOR, plus 1.00% (the “Base Rate”), plus an additional rate ranging from 0.50% to 1.25% per annum (determined based on a total leverage ratio), or (b) a Eurodollar rate (the “Eurodollar Rate”) plus an additional rate ranging from 1.50% to 2.25% per annum (determined based on a total leverage ratio), provided that for the period until the delivery of the compliance certificate for the period ending March 31, 2016, the additional rate used in calculating both floating rates was (i) 1.00% per annum for borrowings bearing interest at the Base Rate, and (ii) 2.00% per annum for borrowings bearing interest at the Eurodollar Rate. Upon a payment default in respect of principal, interest or other amounts due and payable under the Credit Agreement or related loan documents, default interest will accrue on all overdue amounts at an additional rate of 2.00% per annum. The Credit Agreement requires that MSGN L.P. pay a commitment fee of 0.30% in respect of the average daily unused commitments, as well as fronting fees, to banks that issue letters of credit pursuant to the Revolving Credit Facility.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**  
**(Continued)**

The Credit Agreement generally requires the Holdings Entities and MSGN L.P. and its restricted subsidiaries on a consolidated basis to comply with a maximum total leverage ratio of 6.00:1.00 from the closing date until September 30, 2016 and a maximum total leverage ratio of 5.50:1.00 from October 1, 2016 until maturity, subject, in each case, to upward adjustment during the continuance of certain events. In addition, there is a minimum interest coverage ratio of 2.00:1.00 for the Holdings Entities and MSGN L.P. and its restricted subsidiaries on a consolidated basis. As of September 30, 2017, the Holdings Entities and MSGN L.P. and its restricted subsidiaries on a consolidated basis were in compliance with the financial covenants of the Credit Agreement. All borrowings under the Credit Agreement are subject to the satisfaction of customary conditions, including absence of a default and accuracy of representations and warranties. As of September 30, 2017, there were no letters of credit issued and outstanding under the Revolving Credit Facility, which provides full borrowing capacity of \$250,000. The Company has made principal payments aggregating \$247,500 through September 30, 2017. The Term Loan Facility amortizes quarterly in accordance with its terms through June 30, 2020 with a final maturity date on September 28, 2020.

As of September 30, 2017, the principal repayments required under the Term Loan Facility are as follows:

Remainder of fiscal year ending June 30, 2018	\$ 56,250
Fiscal year ending June 30, 2019	75,000
Fiscal year ending June 30, 2020	114,375
Fiscal year ending June 30, 2021	1,056,875
	<u>\$ 1,302,500</u>

All obligations under the Credit Agreement are guaranteed by the Holdings Entities and MSGN L.P.'s existing and future direct and indirect domestic subsidiaries that are not designated as excluded subsidiaries or unrestricted subsidiaries (the "Subsidiary Guarantors," and together with the Holdings Entities, the "Guarantors"). All obligations under the Credit Agreement, including the guarantees of those obligations, are secured by certain assets of MSGN L.P. and each Guarantor (collectively, "Collateral"), including, but not limited to, a pledge of the equity interests in MSGN L.P. held directly by the Holdings Entities and the equity interests in each Subsidiary Guarantor held directly or indirectly by MSGN L.P. Subject to customary notice and minimum amount conditions, MSGN L.P. may voluntarily prepay outstanding loans under the Credit Agreement at any time, in whole or in part, without premium or penalty (except for customary breakage costs with respect to Eurodollar loans). MSGN L.P. is required to make mandatory prepayments in certain circumstances, including without limitation from the net cash proceeds of certain sales of assets (including Collateral) or casualty insurance and/or condemnation recoveries (subject to certain reinvestment, repair or replacement rights) and the incurrence of certain indebtedness, subject to certain exceptions.

In addition to the financial covenants discussed above, the Credit Agreement and the related security agreement contain certain customary representations and warranties, affirmative covenants, and events of default. The Credit Agreement contains certain restrictions on the ability of the Holdings Entities and MSGN L.P. and its restricted subsidiaries to take certain actions as provided in (and subject to various exceptions and baskets set forth in) the Credit Agreement, including the following: (i) incurring additional indebtedness and contingent liabilities; (ii) creating liens on certain assets; (iii) making investments, loans or advances in or to other persons; (iv) paying dividends and distributions or repurchasing capital stock; (v) changing their lines of business; (vi) engaging in certain transactions with affiliates; (vii) amending specified material agreements; (viii) merging or consolidating; (ix) making certain dispositions; and (x) entering into agreements that restrict the granting of liens. The Holdings Entities are also subject to customary passive holding company covenants.

#### **Note 7. Commitments and Contingencies**

##### **Commitments**

As more fully described in Notes 9 and 10 to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended June 30, 2017, the Company's contractual obligations not reflected on the balance sheet consist primarily of its obligations under media rights agreements and, to a lesser extent, long-term noncancelable operating lease agreements.

In addition, see Note 6 for the principal repayments required under the Company's Term Loan Facility.

##### **Legal Matters**

The Company is a defendant in various lawsuits. Although the outcome of these matters cannot be predicted with certainty, management does not believe that resolution of these lawsuits will have a material adverse effect on the Company.

**Note 8. Fair Value Measurements**

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable. Observable inputs are developed using market data, such as publicly available information about actual events or transactions, and reflect the assumptions that market participants would use when pricing the asset or liability. Unobservable inputs are inputs for which market data is not available and that are developed using the best information available about the assumptions that market participants would use when pricing the asset or liability. The fair value hierarchy consists of the following three levels:

- Level I — Quoted prices for identical instruments in active markets.
- Level II — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- Level III — Instruments whose significant value drivers are unobservable.

The following table presents for each of these hierarchy levels, the Company's assets that are measured at fair value on a recurring basis, which include cash equivalents:

	Level I	Level II	Level III	Total
<b>September 30, 2017</b>				
Assets:				
Money market accounts	\$ 28,205	\$ —	\$ —	\$ 28,205
Time deposits	144,743	—	—	144,743
Total assets measured at fair value	<u>\$ 172,948</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 172,948</u>
<b>June 30, 2017</b>				
Assets:				
Money market accounts	\$ 34,128	\$ —	\$ —	\$ 34,128
Time deposits	106,482	—	—	106,482
Total assets measured at fair value	<u>\$ 140,610</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 140,610</u>

Money market accounts and time deposits are classified within Level I of the fair value hierarchy as they are valued using observable inputs that reflect quoted prices for identical assets in active markets. The carrying amount of the Company's money market accounts and time deposits approximates fair value due to their short-term maturities.

*Other Financial Instruments*

The fair value of the Company's long-term debt (see Note 6) was approximately \$1,296,000 as of September 30, 2017. The Company's long-term debt is classified within Level II of the fair value hierarchy as it is valued using quoted prices of such securities for which fair value can be derived from inputs that are readily observable.

**Note 9. Pension Plans and Other Postretirement Benefit Plan**

As more fully described in Note 13 to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended June 30, 2017, the Company sponsors (i) a non-contributory qualified defined benefit pension plan covering certain of its union employees, (ii) an unfunded non-contributory, non-qualified frozen excess cash balance plan covering certain employees, and (iii) an unfunded non-contributory, non-qualified frozen defined benefit pension plan for the benefit of certain employees who participated in an underlying qualified plan (collectively the "MSG Networks Plans"). *Stock Options Award Activity*

The following table summarizes activity relating to holders of the Company's stock options for the three months ended September 30, 2017:

In September 2017, the Company granted 853 stock options, of which 50% are subject to three-year ratable vesting and the remaining 50% are subject to three-year cliff vesting and the achievement of certain Company performance criteria. These options have an expiration period of 7.5 years. The Company calculated the fair value of these options on the date of grant using the Black-Scholes option pricing model, which resulted in a grant date fair value of \$5.63 per option.

**MSG NETWORKS INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**  
**(Continued)**

The following were the key assumptions used to calculate the fair value of this award:

Risk-free interest rate	1.76%
Expected term	5.25 years
Expected volatility	24.79%

The Company's computation of expected term was calculated using the simplified method (the average of the vesting period and option term) as prescribed in ASC Topic 718-10-S99. The Company's computation of expected volatility was based on historical volatility of its common stock.

The aggregate intrinsic value is calculated for in-the-money options as the difference between (i) the exercise price of the underlying award and (ii) the quoted price of the Company's Class A Common Stock at September 30, 2017 and June 30, 2017, as applicable.

*Restricted Share Units Award Activity*

The following table summarizes activity relating to holders (including Company and MSG employees) of the Company's RSUs for the three months ended September 30, 2017:

	Number of			Weighted-Average Fair Value Per Share At Date of Grant
	Nonperformance Based Vesting RSUs	Performance Based Vesting RSUs		
Unvested award balance as of June 30, 2017	544	597	\$	25.79

Forfeited	(1)	—		66.91
Unvested award balance as of September 30, 2017	508	805		21.00

Nonperformance based vesting RSUs granted under the Employee Stock Plan during the three months ended September 30, 2017 are subject to three-year ratable vesting. Performance based vesting RSUs granted under the Employee Stock Plan during the three months ended September 30, 2017 included 114 RSUs that are subject to three-year ratable vesting and 226 RSUs subject to three-year cliff vesting. RSUs granted under the Employee Stock Plan will settle in shares of the Company's Class A Common Stock (either from treasury or with newly issued shares), or, at the option of the Compensation Committee, in cash.

The fair value of RSUs that vested during the three months ended September 30, 2017 was \$5,846. Upon delivery, RSUs granted under the Employee Stock Plan were net share-settled to cover the required statutory tax withholding obligations and the remaining number of shares were issued from the Company's treasury shares. To fulfill the employees' statutory minimum tax withholding obligations for the applicable income and other employment taxes, 128 of these RSUs, with an aggregate value of \$2,682, were retained by the Company and the taxes paid during the three months ended September 30, 2017 are reflected as a financing activity in the accompanying consolidated statement of cash flows.

### **Introduction**

MD&A is provided as a supplement to, and should be read in conjunction with, the unaudited consolidated financial statements and notes thereto included in this Quarterly Report on Form 10-Q, as well as our Annual Report on Form 10-K for the year ended June 30, 2017 to help provide an understanding of our financial condition, changes in financial condition and results of operations. Unless the context otherwise requires, all references to “we,” “us,” “our,” or the “Company” refer collectively to MSG Networks Inc., a holding company, and its direct and indirect subsidiaries through which substantially all of our operations are conducted. The Company owns and operates two regional sports and entertainment networks, MSG Network and MSG+, collectively the “MSG Networks.”

On September 30, 2015 (the “Distribution Date”), the Company distributed to its stockholders all of the outstanding common stock of The Madison Square Garden Company (“MSG”) (the “Distribution”). Following the Distribution, the Company no longer consolidates the financial results of MSG for purposes of its own financial reporting. Certain transaction costs related to the Distribution are classified in the consolidated statement of operations for the three months ended September 30, 2016 as discontinued operations.

The Company operates and reports financial information in one segment.

This MD&A is organized as follows:

*Results of Operations.* This section provides an analysis of our unaudited consolidated results of operations for the three months ended September 30, 2017 as compared with the three months ended September 30, 2016.

*Liquidity and Capital Resources.* This section provides a discussion of our financial condition and liquidity, as well as an analysis of our cash flows for the three months ended September 30, 2017 as compared with the three months ended September 30, 2016.

*Recently Issued Accounting Pronouncements Not Yet Adopted and Critical Accounting Policies.* This section discusses recently issued accounting pronouncements not yet adopted, as well as the results of the Company’s annual impairment testing of goodwill performed during the first quarter of fiscal year 2018. This section should be read together with our critical accounting policies, which are discussed in our Annual Report on Form 10-K for the year ended June 30, 2017 under “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations — Recently Issued Accounting Pronouncements Not Yet Adopted and Critical Accounting Policies — Critical Accounting Policies” and in the notes to the consolidated financial statements included therein.

NM – Percentage is not meaningful

In the first quarter of fiscal year 2018, the Company adopted Accounting Standards Update (“ASU”) No. 2017-07, *Compensation — Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. See Note 2 to the consolidated financial statements included in Item 1 of this Quarterly Report on Form 10-Q for more information. As this standard was applied retrospectively, the Company reclassified \$420 of net periodic benefit cost from selling, general and administrative expenses and direct operating expenses to a separate line item within other income (expense) in the accompanying consolidated statement of operations for the three months ended September 30, 2016.

*Revenues*

Revenues for the three months ended September 30, 2017 increased \$3,878, or 3%, to \$157,456 as compared with the prior year period. The net increase was attributable to the following:

Increase in affiliation fee revenue	\$ 3,847
Decrease in advertising revenue	(136)
Other net increases	167
	<u>\$ 3,878</u>

The increase in affiliation fee revenue was primarily due to higher affiliation rates, partially offset by the impact of a low single-digit percentage decrease in subscribers as compared with the prior year period.

*Direct operating expenses*

Direct operating expenses for the three months ended September 30, 2017 increased \$2,316, or 4%, to \$63,091 as compared with the prior year period primarily due to higher rights fees expense.

## [Table of Contents](#)

### *Selling, general and administrative expenses*

Selling, general and administrative expenses for the three months ended September 30, 2017 increased \$263, or 2%, to \$15,561 as compared with the prior year period primarily due to higher employee compensation and related benefits, partially offset by lower advertising and marketing costs and professional fees.

### *Operating income*

Operating income for the three months ended September 30, 2017 increased \$1,426, or 2%, to \$76,353 as compared with the prior year period primarily due to (as discussed above) higher revenues, partially offset by higher direct operating expenses and, to a lesser extent, higher selling, general and administrative expenses (including share-based compensation expense).

### *Interest expense*

Interest expense for the three months ended September 30, 2017 increased \$1,128, or 12%, to \$10,643 as compared with the prior year period primarily due to higher average interest rates in the fiscal year 2018 first quarter (2.9% as compared with 2.2%), partially offset by a lower average principal balance under the Company's term loan facility (see "Financing Agreements — Senior Secured Credit Facilities").

### *Income taxes*

Income tax expense for the three months ended September 30, 2017 of \$25,024 differs from the income tax expense derived from applying the statutory federal rate to pre-tax income due principally to the impact of state and local income taxes (net of federal benefit) of \$4,516. This increase was partially offset by the impact of tax benefits related to the domestic production activities deduction of \$1,903, \$521 of tax benefits related to share-based compensation vesting, and other items of \$231.

Income tax expense attributable to continuing operations for the three months ended September 30, 2016 of \$25,258 differs from the income tax expense derived from applying the statutory federal rate to pre-tax income due principally to the impact of state and local income taxes (net of federal benefit) of \$4,688 and other items of \$99. These increases were partially offset by the impact of tax benefits related to the domestic production activities deduction of \$1,873, and a tax return to book provision adjustment in connection with the filing of the Company's federal income tax return of \$623.

### *Adjusted operating income*

The Company evaluates performance based on several factors, of which the key financial measure is adjusted operating income. Adjusted operating income is defined as operating income (loss) before (i) depreciation, amortization and impairments of property and equipment and intangible assets, (ii) share-based compensation expense or benefit, (iii) restructuring charges or credits and (iv) gains or losses on sales or dispositions of businesses. The Company has presented the components that reconcile adjusted operating income to operating income, a GAAP measure:

	Three Months Ended		Increase (Decrease) in AOI
	September 30,		
	2017	2016	
Operating income	\$ 76,353	\$ 74,927	\$ 1,426
Share-based compensation	2,921	1,776	1,145
Depreciation and amortization	2,451	2,578	(127)
Adjusted operating income	\$ 81,725	\$ 79,281	\$ 2,444

Adjusted operating income for the three months ended September 30, 2017 increased \$2,444, or 3%, to \$81,725 as compared with the prior year period primarily due to (as discussed above) higher revenues and, to a lesser extent, lower selling, general and administrative expenses (excluding share-based compensation expense), partially offset by higher direct operating expenses.

### **Liquidity and Capital Resources**

#### ***Overview***

Our primary sources of liquidity are cash and cash equivalents, cash flows from the operations of our business and available borrowing capacity under our \$250,000 revolving credit facility with a syndicate of lenders which was undrawn as of September 30, 2017 (see “Financing Agreements — Senior Secured Credit Facilities” below). Our principal uses of cash include working capital-related items, capital spending, taxes and debt service. The Company’s use of its available liquidity will be based upon the ongoing review of the funding needs of the business, the optimal allocation of cash resources, and the timing of cash flow generation.

We believe we have sufficient liquidity, including \$172,948 in cash and cash equivalents, as of September 30, 2017, as well as the available borrowing capacity under our revolving credit facility and our anticipated operating cash flows, to fund our business operations and service our outstanding term loan (see “Financing Agreements — Senior Secured Credit Facilities” below) over the next twelve months. However, potential subscriber reductions of our Distributors, changes in the demand for our programming, advertising revenue declines, our ability to maintain or obtain content, and other factors could adversely impact our business and results of operations, which might require that we seek alternative sources of funding through the capital and credit markets that may or may not be available to us.

#### ***Financing Agreements***

##### ***Senior Secured Credit Facilities***

On September 28, 2015, MSGN Holdings L.P. (“MSGN L.P.”), an indirect wholly-owned subsidiary of the Company, MSGN Eden, LLC, an indirect subsidiary of the Company and the general partner of MSGN L.P., Regional MSGN Holdings LLC, a direct subsidiary of the Company and the limited partner of MSGN L.P. (collectively with MSGN Eden, LLC, the “Holdings Entities”), and certain subsidiaries of MSGN L.P. entered into a credit agreement (the “Credit Agreement”) with a syndicate of lenders.

The Credit Agreement provides MSGN L.P. with senior secured credit facilities (the “Senior Secured Credit Facilities”) consisting of: (a) an initial \$1,550,000 term loan facility (the “Term Loan Facility”) and (b) a \$250,000 revolving credit facility (the “Revolving Credit Facility”), each with a term of five years. In connection with the Distribution, \$1,450,000 of the proceeds from the Term Loan Facility was contributed to MSG immediately following the closing of the Senior Secured Credit Facilities. The remainder of the proceeds from the Term Loan Facility were used by MSGN L.P. to pay for certain fees and expenses associated with the Distribution and the Senior Secured Credit Facilities and the balance was designated for use to fund working capital needs and other general corporate purposes of MSGN L.P. The Revolving Credit Facility was undrawn as of September 30, 2017 and is available to fund working capital needs and other general corporate purposes of MSGN L.P. Up to \$35,000 of the Revolving Credit Facility is available for the issuance of letters of credit.

The Credit Agreement generally requires the Holdings Entities and MSGN L.P. and its restricted subsidiaries on a consolidated basis to comply with a maximum total leverage ratio of 6.00:1.00 from the closing date until September 30, 2016 and a maximum total leverage ratio of 5.50:1.00 from October 1, 2016 until maturity, subject, in each case, to upward adjustment during the continuance of certain events. In addition, there is a minimum interest coverage ratio of 2.00:1.00 for the Holdings Entities and MSGN L.P. and its restricted subsidiaries on a consolidated basis. As of September 30, 2017, the Holdings Entities and MSGN L.P. and its restricted subsidiaries on a consolidated basis were in compliance with the financial covenants of the Credit Agreement. All borrowings under the Credit Agreement are subject to the satisfaction of customary conditions, including absence of a default and accuracy of representations and warranties. As of September 30, 2017, there were no letters of credit issued and outstanding under the Revolving Credit Facility, which provides full borrowing capacity of \$250,000. The Company has made principal payments aggregating \$247,500 through September 30, 2017. The Term Loan Facility amortizes quarterly in accordance with its terms through June 30, 2020 with a final maturity date on September 28, 2020.

In addition to the financial covenants discussed above, the Credit Agreement and the related security agreement contain certain customary representations and warranties, affirmative covenants and events of default. The Credit Agreement contains certain restrictions on the ability of the Holdings Entities and MSGN L.P. and its restricted subsidiaries to take certain actions as provided in (and subject to various exceptions and baskets set forth in) the Credit Agreement, including the following: (i) incurring additional indebtedness and contingent liabilities; (ii) creating liens on certain assets; (iii) making investments, loans or advances in or to other persons; (iv) paying dividends and distributions or repurchasing capital stock; (v) changing their lines of business; (vi) engaging in certain transactions with affiliates; (vii) amending specified material agreements; (viii) merging or consolidating;

## [Table of Contents](#)

(ix) making certain dispositions; and (x) entering into agreements that restrict the granting of liens. The Holdings Entities are also subject to customary passive holding company covenants.

See Note 6 to the consolidated financial statements included in “Part I - Item 1. Financial Statements” of this Quarterly Report on Form 10-Q for more information on the Credit Agreement.

### ***Contractual Obligations***

As more fully described in Notes 9 and 10 to the consolidated financial statements included in the Company’s Annual Report on Form 10-K for the year ended June 30, 2017, the Company’s contractual obligations not reflected on the balance sheet consist primarily of its obligations under media rights agreements and, to a lesser extent, long-term noncancelable operating lease agreements.

In addition, see Note 6 to the consolidated financial statements included in “Part I - Item 1. Financial Statements” of this Quarterly Report on Form 10-Q for the principal repayments required under the Company’s Term Loan Facility.

### ***Cash Flow Discussion***

#### *Operating Activities from continuing operations*

Net cash provided by operating activities from continuing operations for the three months ended September 30, 2017 increased by \$1,595 to \$52,419 as compared with the prior year period. This increase was primarily due to lower income taxes paid by continuing operations and, to a lesser extent, higher income from continuing operations before income taxes as compared with the prior year period, partially offset by other net decreases.

#### *Investing Activities from continuing operations*

Net cash used in investing activities from continuing operations for the three months ended September 30, 2017 decreased by \$1,242 to \$484 as compared with the prior year period due to lower capital expenditures in the current year period.

#### *Financing Activities from continuing operations*

Net cash used in financing activities from continuing operations for the three months ended September 30, 2017 increased by \$7,822 to \$20,074 as compared with the prior year period primarily due to higher principal repayments on the Company's Term Loan Facility.

## **Recently Issued Accounting Pronouncements Not Yet Adopted and Critical Accounting Policies**

### ***Recently Issued Accounting Pronouncements Not Yet Adopted***

In May 2014, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which supersedes the revenue recognition requirements in FASB Accounting Standards Codification (“ASC”) Topic 605, *Revenue Recognition*. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing, and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. In August 2015, the FASB issued ASU No. 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*, which defers the effective date of ASU No. 2014-09 for all entities by one year. In March 2016, the FASB issued ASU No. 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations*, which provides clarification on the implementation guidance on principal versus agent considerations outlined in ASU No. 2014-09. In April 2016, the FASB issued ASU No. 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*, which finalized amendments to identifying performance obligations and accounting for licenses of intellectual property. In May 2016, the FASB issued ASU No. 2016-12, *Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients*, which clarifies assessing collectibility, noncash consideration, presentation of sales taxes, completed contracts, and contract modifications at transition. This standard will be effective for the Company beginning in the first quarter of fiscal year 2019 using one of two retrospective application methods. The Company is currently evaluating the impact this standard will have on its consolidated financial statements.

## Table of Contents

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which supersedes the current guidance in ASC Topic 840, *Leases*. This ASU requires the recognition of lease assets and lease liabilities on the balance sheet for those leases classified as operating leases under previous generally accepted accounting principles in the United States. The amended guidance also requires additional quantitative and qualitative disclosures regarding the amount, timing, and uncertainty of cash flows arising from leases in order to provide additional information about the nature of an organization's leasing activities. This standard will be effective for the Company beginning in the first quarter of fiscal year 2020, with early adoption permitted, and the modified retrospective approach required. The Company is currently evaluating the impact this standard will have on its consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*, which amends ASC Topic 230, *Statement of Cash Flows* to eliminate the diversity in practice related to the classification of certain cash receipts and payments in the statement of cash flows by adding or clarifying guidance on eight specific cash flow issues. This standard will be effective for the Company beginning in the first quarter of fiscal year 2019, with early adoption permitted and the retrospective approach required. The adoption of this guidance is not expected to have a material impact on the Company's consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*, which clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses, which will effect various areas of accounting including, but not limited to, goodwill and consolidation. This standard will be effective for the Company beginning in the first quarter of fiscal year 2019, with early adoption permitted. The standard is to be applied prospectively. The adoption of this guidance is not expected to have a material impact on the Company's consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, *Intangibles — Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*, which simplifies the measurement of goodwill impairment by eliminating the requirement of performing a hypothetical purchase price allocation. Instead, impairment will be measured using the difference between the carrying amount and fair value of the reporting unit. The amended guidance also eliminates the requirement for any reporting unit with a zero or a negative carrying amount to perform a qualitative assessment and will require disclosure of the amount of goodwill allocated to each reporting unit with a zero or a negative carrying amount of net assets. This standard will be effective for the Company beginning in the first quarter of fiscal year 2021, with early adoption permitted. The standard is to be applied prospectively. Based on the Company's most recent annual goodwill impairment test completed in fiscal year 2018, the adoption of this guidance is not expected to have any initial impact on the Company's consolidated financial statements.

In May 2017, the FASB issued ASU No. 2017-09, *Compensation — Stock Compensation (Topic 718): Scope of Modification Accounting*, which provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. An entity should account for the effects of a modification unless all of the following characteristics of the modified award are the same as the original award immediately before the original award is modified: (i) the award's fair value, (ii) the award's vesting condition, and (iii) the award's classification as an equity or liability instrument. This standard will be effective for the Company beginning in the first quarter of fiscal year 2019, with early adoption permitted. The standard is to be applied prospectively to an award modified on or after the adoption date. The adoption of this guidance is not expected to have a material impact on the Company's consolidated financial statements.

### **Critical Accounting Policies**

The following discussion has been included to provide the results of our annual impairment testing of goodwill performed during the first quarter of fiscal year 2018. There have been no material changes to the Company's critical accounting policies from those set forth in our Annual Report on Form 10-K for the year ended June 30, 2017. See "Recently Adopted Accounting Pronouncements" in Note 2 to the consolidated financial statements included in "Part I - Item 1. Financial Statements" of this Quarterly Report on Form 10-Q for a discussion on the Company's adoption of ASU 2017-07, *Compensation — Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*.

#### *Goodwill*

The goodwill balance reported on the Company's balance sheet as of September 30, 2017 is \$424,508. Goodwill is tested annually for impairment as of August 31<sup>st</sup> and at any time upon the occurrence of certain events or substantive changes in circumstances. The Company has one reporting unit for evaluating goodwill impairment. The Company has the option to perform a qualitative assessment to determine if an impairment is more likely than not to have occurred. If the Company can support the conclusion that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, the Company would not need to perform the two-step impairment test for that reporting unit.

## [Table of Contents](#)

During the first quarter of fiscal year 2018, the Company performed its annual impairment test of goodwill. The Company elected to perform the qualitative assessment of impairment for the Company's goodwill. This assessment considered factors such as:

- Macroeconomic conditions;
- Industry and market considerations;
- Cost factors;
- Overall financial performance;
- Other relevant company-specific factors such as changes in management, strategy or customers; and
- Relevant specific events such as changes in the carrying amount of net assets.

Based on this impairment test, there was no impairment of goodwill identified.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There were no material changes to the disclosures on this matter made in the Company's Annual Report on Form 10-K for the year ended June 30, 2017.

### **Item 4. Controls and Procedures**

An evaluation was carried out under the supervision and with the participation of the Company's management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that as of September 30, 2017 the Company's disclosure controls and procedures were effective.

There were no changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

**Item 1. Legal Proceedings**

The Company is a defendant in various lawsuits. Although the outcome of these matters cannot be predicted with certainty, management does not believe that resolution of these lawsuits will have a material adverse effect on the Company.
